

The "Payment Method" Field:

By default, the field is empty. To reserve a car, the user needs to input details for at least one card and click the "Add" button. There are no restrictions on the number of cards the user can add.

The "Add Card" Window:

Adicionar um cartão

Número do cartão (não precisa ser seu):

1234 4321 7408

Código

12

Adicionar

Cancelar

Requirements for the "Add Card" Window:

Field	Restrictions
Card Number	<div>Format nnnn nnnn nnnn</div> <div>Only numbers. 12 symbols.</div> <div>Restrictions for nnnn: from 0000 to 9999 (including these numbers).</div> <div>Spaces are automatically inserted when the user enters the number and clicks outside the field.</div> <div>If fewer than 12 symbols are entered, the "Add" button remains inactive. It is impossible to input more than 12 symbols.</div> <div>The system does not allow inserting other symbols or numbers that do not meet the requirements.</div>
Code	<div>Format nn</div> <div>Only numbers. 2 symbols.</div> <div>Restrictions for nn: from 01 to 99 (including these numbers).</div> <div>If fewer than 2 symbols are entered, the "Add" button remains inactive. It is impossible to input more than 2 symbols.</div> <div>The system does not allow inserting other symbols or numbers that do not meet the requirements.</div>

When a card is added, the interface displays the last 4 digits of its number. This is how the user can differentiate their cards.
