Reserve Car

If the user has filled out all fields correctly and clicked on the "Reserve" button, the window with the header "Car Reserved" will appear on the screen. The brand, plate, icon, and address of the car are inside this window, as well as the cost of the ride and the timer displaying the free wait time

If the "From" and "To" fields are filled out, the exact cost of the ride will be displayed. Otherwise, the price per minute will be displayed.

Timer

- The timer starts counting the free wait time when the user clicks on the "Reserve" field.
- While the timer is running, the user can cancel the ride for free.
- When the free wait time is up, the timer starts counting the car sharing time.
